Professional Summary

UI/UX Designer and Game Artist with over 15 years of experience in digital creation and more than a decade working in the games industry. I work on the creation and implementation of game interfaces and game-ready assets, covering both 2D and 3D pipelines.

My work includes UI/UX design, 2D art, 3D asset creation, and full integration into Unity, including materials, shaders, prefabs, and in-game optimization. I have strong experience across mobile, PC, and VR games, with a focus on usability, visual clarity, performance, and player experience.

I collaborate closely with development teams, delivering well-structured, optimized, and production-ready assets. I have worked on shipped games with more than 7 million combined downloads on Google Play.

Skills

- **UI/UX:** wireframes, prototyping, usability testing, user research, mobile UX, Figma
- **Engines and implementation:** Unity (UI, prefabs, anchors, 9-slice, animations), shaders and materials, optimization, Godot, VR
- **2D art and motion:** Adobe Creative Suite (Illustrator, Photoshop, Animate), illustration, pixel art, microinteractions, particle effects, motion graphics
- **3D art:** Blender, Substance Painter, Marmoset Toolbag, modeling, UV mapping, PBR texturing
- **Management:** project coordination, task prioritization, team training, cross-team communication
- **AI tools:** Claude Code, Codex, ChatGPT, Gemini

Work Experience

UX/UI Designer — Fontec

November 2021 – Present · Florianópolis, Brazil

- Coordination and management of multiple large-scale game development projects, including task delegation, prioritization, progress tracking and cross-department collaboration.
- Organization and prioritization of development tasks, ensuring alignment between teams and project objectives.
- Training and technical guidance for team members and professionals from other departments.
- Central point of contact between departments, providing technical support, clarifying requirements and helping resolve development challenges.
- Monitoring project deliverables, maintaining quality standards and contributing directly to UI/UX design and game development.
- 2D concepts and illustrations, including characters, medals, icons and similar assets.
- Microinteraction animations, emojis, characters and particle effects.
- Analysis and creation of wireframes and prototypes for game interfaces and screens.
- Full UI implementation in Unity, including responsive layouts, anchors, 9-slice sprites, prefabs, animations, materials and complete in-engine interfaces ready for developer integration.
- In-engine UI animation setup, ensuring smooth interactions and a polished user experience.
- Organization, consolidation and delivery of assets to the development team, ensuring standardization, correct exporting and optimization.
- Creation of game-ready 3D assets (props and environments) across the full pipeline: modeling, UV mapping, texturing and optimization for Unity.
- Implementation and integration of 2D and 3D assets in Unity, including importing, material creation, shader adjustments and prefab organization.
- Production of 3D assets for in-game event banners and marketing materials (images and videos).

UX Designer — Smarket Solutions

July 2021 – November 2021

- Conducting interviews to discover and validate hypotheses, enhancing understanding of the target audience.

- Usability testing of prototypes and products to ensure accessibility and effectiveness of developed solutions.
- Prototyping and in-depth analysis of user flow and processes, aiming to enhance user experience.
- Designing and implementing intuitive and functional interfaces aligned with user needs and project objectives.

2D Artist — Quimera Apps

August 2019 – June 2021

- 2D concepts, illustrations, and animations such as characters, icons, and similar items (pixel art).
- Creating wireframes and prototypes for the development of the game interface and screens.
- Project management.
- Implementations in Unity 3D (images, animations, and scripts).
- UX/UI.

2D Artist — PixelBag Studio

October 2017 – June 2019

- 2D concepts, illustrations, and animations such as characters, icons, and similar items (pixel art).
- Creating wireframes and prototypes for the development of the game interface and screens.
- Project management.
- Implementations in Unity 3D (images, animations, and scripts).
- UX/UI.

2D Artist — Jogos do Rei

March 2013 – December 2017

- 2D concepts and illustrations, such as characters, medals, icons, and similar items.
- Analysis and creation of wireframes and prototypes for the development of the game interface and screens.
- Consolidating the delivery of produced assets to the development team (asset exporting and optimization).

Graphic Designer — DL Studio

April 2010 – January 2013

Web Designer — Agência Wizi

May 2008 – March 2010

Shipped Projects

- **MegaJogos / GameVelvet: Cards & Board Games** (Fontec, Nov 2021 – Present): the company's flagship app, with 20+ card and board games such as Buraco, Truco and Dominoes. 5M+ downloads, 4.7 rating on Google Play (154K reviews) and 4.8 on the App Store. UI/UX, Unity UI and 2D/3D art. Google Play · App Store
- **Conquian Online** (Fontec, Nov 2022 – Mar 2023): online card game for the Latin American market. 1M+ downloads, 4.6 rating on Google Play. UI/UX, Unity UI and 2D art. Google Play
- **Mega Bingo MegaJogos** (Fontec, Feb 2022 – Apr 2022): online bingo with themed rooms, power-ups and rankings. 1M+ downloads, 4.7 rating on Google Play. UI/UX, 2D art and animation. Google Play · App Store
- **Solitaire GameVelvet** (Fontec, Mar 2024 – Aug 2024): classic Klondike solitaire with draw-1/draw-3 modes, hints and rankings. 50K+ downloads, 4.8 rating on Google Play. UI/UX, Unity UI and microinteractions. Google Play · App Store
- **Sueca Tavern: Card Game** (Fontec, May 2025 – Feb 2026): online multiplayer Sueca with tournaments, rankings and chat. 10K+ downloads, 4.8 rating on the App Store. UI/UX, Unity UI and 2D art. Google Play · App Store
- **Champion's Odyssey: Idle RPG** (Quimera Apps, Aug 2019 – Aug 2021): pixel-art idle RPG. Characters, icons, animations, UI wireframes, Unity implementation and project management. Google Play

Education

- Graphic Design — Universidade do Vale do Itajaí (Univali)

Certifications

- UX Usability: making life easier for mobile users
- Web Design
- Flutter: Widgets, Stateless, Stateful, Images and Animations
- Dart: creating and manipulating variables and lists

- Dart: understanding asynchronous programming

Languages

- Portuguese — Native
- English — Professional working proficiency
- French — Elementary
